

NGOs European seminar on the future of the CAP

Save the date: 26th - 27th of June, 2008

For the CAP Health Check, the European Commission set out its Communication, organized a stakeholders' consultation and will present its legislative proposals on the 20th of May.

Just before the French Presidency, the European NGOs will discuss and give their position on the future of the CAP to the decision makers. **The European Bureau of Environment and 4D (French environmental NGO based in Paris) are pleased to invite you to this high level seminar.**

We hope Mr. Borloo and Mr Barnier (respectively Minister of Environment and Agriculture), as well as DG agriculture and DG environment representatives to attend the seminar.

Why: The first objective is to give to the decision makers the environmental NGOs' common position, in order to influence it during the French presidency of the EU. The second one is to strengthen the European NGOs collaboration through a better understanding of each other's position.

When: 26th – 27th of June 2008

Where: Science Po, Paris, France

Who: 50 participants from European environmental NGOs.

More information, including the program and the registration form, will be soon send.
